Security Scan Report

Scan Summary

Target URL: `http://localhost:3000`

Scan Date: 2025-10-01 17:47:58

Total Vulnerabilities Found: 9

Vulnerability Details

Severity	Vulnerability Type	URL	Description
High	Access Control	`http://localhost:3000/admin/`	Sensitive path 'admin/' is publicly accessible at http://localhost:3000/admin/.
High	Access Control	`http://localhost:3000/administrator/`	Sensitive path 'administrator/' is publicly accessible at http://localhost:3000/administrator/.
High	Access Control	`http://localhost:3000/login/`	Sensitive path 'login/' is publicly accessible at http://localhost:3000/login/.
High	Access Control	`http://localhost:3000/.git/config`	Sensitive path '.git/config' is publicly accessible at http://

Severity	Vulnerability Type	URL	Description
			localhost:3000/.git/config.
High	Access Control	`http://localhost:3000/wp-admin/`	Sensitive path 'wp-admin/' is publicly accessible at http://localhost:3000/wp-admin/.
High	Access Control	`http://localhost:3000/backup.zip`	Sensitive path 'backup.zip' is publicly accessible at http://localhost:3000/backup.zip.
High	Access Control	`http://localhost:3000/config.php.bak`	Sensitive path 'config.php.bak' is publicly accessible at http://localhost:3000/config.php.bak.
Medium	Access Control	`http://localhost:3000/robots.txt`	Sensitive path 'robots.txt' is publicly accessible at http://localhost:3000/robots.txt.
Medium	Access Control	`http://localhost:3000/sitemap.xml`	Sensitive path 'sitemap.xml' is publicly accessible at http://localhost:3000/sitemap.xml.
